

Epiblast

The image shows a large, irregular shape composed of many overlapping circles in various shades of blue. The shape is elongated and somewhat fish-like, with a pointed left side and a more rounded right side. The circles are densely packed, creating a textured, pixelated appearance. The color gradient transitions from a lighter blue on the left to a darker blue on the right. Two labels are present: 'Epiblast' on the left and 'NE' on the right. There are also a few isolated circles below the main shape.
