

Epiblast

This figure is a scatter plot visualization. It features a large, irregular gray shaded area that serves as a background. Within this area, there are two primary clusters of data points. The first cluster, on the left, is composed of numerous blue circles of varying sizes and opacities, with a few red circles interspersed. The second cluster, on the right, is composed of numerous red circles of varying sizes and opacities, with a few blue circles interspersed. The text 'Epiblast' is positioned to the left of the blue cluster, and the text 'NE' is positioned to the right of the red cluster. The overall shape of the gray area is elongated horizontally, with a slight taper towards the right.
