

Epiblast

The diagram consists of a large, irregular grey cloud-like shape on the left side. To its right is a dense cluster of dots. The dots are colored in a gradient from light orange to dark brown. The word 'Epiblast' is written in bold black text with a white outline to the left of the grey shape. The letters 'NE' are written in bold black text with a white outline to the right of the dot cluster. There are also a few small grey dots below the main cluster.

NE
