

**Epiblast**

A scatter plot visualization showing a distribution of data points. A large, irregular grey cloud represents the overall data. Within this cloud, there is a dense cluster of orange and brown dots on the right side, and a few scattered orange dots on the left. The label 'Epiblast' is positioned on the left side of the grey cloud, and 'NE' is positioned on the right side, near the dense cluster of dots.

**NE**
