

Epiblast

This scatter plot visualization displays a distribution of data points. The points are colored based on their density or intensity, with a gradient from light to dark. The 'Epiblast' cluster on the left is primarily orange, with darker orange and brown points concentrated in its upper-left portion. The 'NE' cluster on the right is primarily blue, with darker blue points concentrated in its lower-right portion. A light gray cloud of points forms the background, representing a less dense or less intense region. The labels 'Epiblast' and 'NE' are positioned near their respective clusters, with 'Epiblast' on the left and 'NE' on the right.
